Multifamily Housing Development and Management

April 15, 2008

Mr. Mark Bordeaux
Browder Electronics, Inc.
4417 Platt Springs Road
West Columbia, SC 29170

Dear Mark:

I am very happy to write a recommendation for Browder Electronics.

Since 2001, Browder has installed the Pelco system at 3 apartment properties in my portfolio. At all properties, the Pelco system has proven to be a detriment to crime, provides documentation for on-site management, and is an aid to law-enforcement officers.

I have always been pleased with the performance of the Pelco system, but it would be nothing without the exceptional support provided by Browder Electronics. You and your staff have always been available to answer any questions, and Browder provides a level of service far superior to previous companies I have dealt with.

I appreciate the assistance you have always given us, and look forward to our continued relationship. I will be happy to discuss our experience with any potential customers.

Best Regards,

Pati Gerrard
Vice President
