Attn: Mark Bordeaux, Account Manager

Subject: Keyscan Access Control System

Dear Mark:

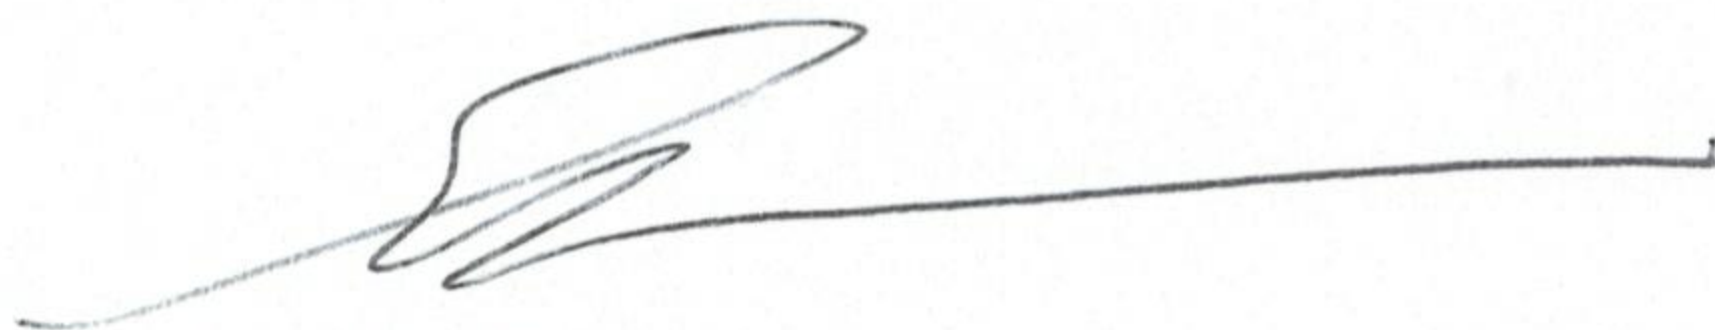

It has been almost a year since Browder Electronics was introduced to us through another company. This letter is to let you know that we have been extremely pleased with your company and to thank you for providing us with such goal oriented work.

You brought the Keyscan Access Control System to us, and we did not realize how detailed your preparation work was then the careful installation work started with your technical team. The thing we were mostly impressed with was how quickly your team responded to our emergency calls. Browder was there truly when we needed your help.

We all realize that no system is perfect at first, but we have found out that Kaizen (continuous improvement) is part of Browder's culture just like our organization. Your entire staff, on and off site but especially the Project Manger, Mr. Brad Filiatreault represent your company very well.

I look forward to having Browder taking a look at other system improvements at our plant.

Sincerely,

Etsuko Persson
General Manager / Administration
